WORK EXPERIENCE

Network Engineer

Magti LLC   2017 - Present

Magti is the largest Internet service provider in Georgia. My main duty is to manage and monitor the internet network, which my coding skills help me to do interesting things.

I wrote an application using Java, to retrieve information from the PRTG server using REST API, process it, write it in an Excel file and send it to an email in the form of a daily traffic report.

I also make configuration backups of more than 1000 Mikrotik devices using Java technology, checking misconfiguration of devices using Mikrotik native API and correct it, if needed.

Also, using Python and ML, I am able to monitor the temperature of the server rooms, make predictions using linear regression and in case there is a danger of temperature rise, generate the corresponding alarm.

Corporate Customer Technical Support Engineer

Magti LLC   2016 - 2017

Supporting and troubleshooting corporate VPN networks, based on Cisco and Mikrotik devices.

Corporate customers installation and service engineer

Magti LLC   2005 - 2016

Providing Internet and VPN service for GGN (Georgian government network) and large corporations, such as banks and microfinance companies.

Math Teacher

KOMAROVI, CAMPUS SCHOOL   2012 - Present

My main responsibility is preparing students for the local and International Mathematics Olympiad. In 2015 andm2016, I coached the school's team at the Zhautykov International Olympiad.

EDUCATION

Master of Mathematics

Ivane Javakhishvili Tbilisi state University   2001 - 2003
